KAWC seeks music lovers to volunteer on air

Yuma, Ariz. (July 16, 2025) – This month, KAWC marks 55 years of broadcasting across Yuma and La Paz Counties. True to its commitment to the community, the radio station is seeking volunteer hosts for music programs on KOFA Border Radio. Music lovers from the community, including AWC students, faculty and staff, are invited to participate.

“When KAWC was started in 1970, everyone on the air was a student,” shared **David Riek**, General Manager of KAWC/KOFA-Border Radio. “The station was born out of a love for radio and serving the community through entertaining programming. As we begin our 55th year on the air we want to give the community a chance to express themselves and share their favorite music.”

Training and orientation through KAWC will equip interested parties with the necessary skills to create music programs for broadcast, streaming, and on-demand access on 94.7 FM KOFA and kawc.org.

For more information, please email music@borderradioAZ.org.
